Enter the Back-End of the Radical App, <http://radical.protean.com.ar/>  
Input your Username and Password

A screenshot of the Radical Fitness login interface. At the top, the "RADICAL FITNESS" logo is displayed. Below it, the text "Identify yourself" is shown. There are two yellow input fields: the first contains the text "admin", and the second contains a series of dots representing a password. Below the password field is a "Remember me" checkbox, which is checked. A blue rounded button labeled "Log in" is positioned below the checkbox. At the bottom of the form, there is a link that says "¿Olvidó su contraseña?".

## **CREATE, ENABLE AND DISABLE OFFICIAL TRAINERS FROM YOUR DATABASE**

This will open a new page to display the relevant fields, which must be completed.

Please complete these steps in this order:

1.- Assign a category to the New User by clicking on the box indicated as TYPE. A window will open to reveal the categories. Select the one relevant to the New User. Your OT's might be in one of the Elite categories (Silver, Gold or Platinum). If not just select Official.

8. Born (optional)

**IMPORTANT!**

For the OT/MT to be an active user of the App, and see the content on their device, it is important that the field 'ENABLED' is selected. See below

Failure to do so will mean the User cannot access content in the App.

ENABLED

It is also important that the OT/MT's email is validated by the system, and a tick appears to the right, as shown in the picture below. Without the tick, you cannot proceed to the next step.

Clarification: the email you are creating, is the one that the OT/MT is going to register with, to log into the app.

Once it's created, the User will receive a welcome email, which will also include the initial Password for their first login.

The Franchisee must check that their OT/MT has received the email, and that they have logged in to the app without any problems.

## GEOLOCATION

The Users' address is important to locate the OTs in a certain area, or to follow the App with the GPS when it's on. It functions this way. When you're typing the first characters of the address, you'll automatically see the different options like the ones shown below. Once you find the correct address, you'll see a marker on the map.

### ASSIGN PROGRAMS TO A USER

By default, the new OT/MT won't have any program. You have to click "Add Program" to assign the correct ones. You have to activate the date so he/she can see the material (as shown below). This process is automatic when an OT completes a Certification and is approved. But, we'll see this later. Now we have to focus on uploading the active OTs.

For the App to work, it's important that the User allows access to their location. That's why the User will have to accept this the first time he/she logs in. Without consent the app will not work.

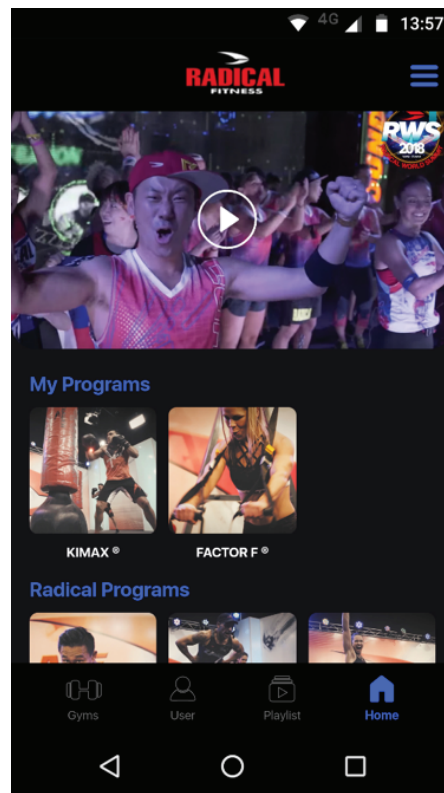

### **INSIDE THE RADICAL MOBILE APP**

Once the user opens the App, he/she is going to see three sections.

1. The first one is to show institutional videos, promotions and everything that's related to advertising and marketing.
2. The second one, "My Programs" is going to show the programs assigned to each OT/MT.
3. The third one, "Radical Programs", is material dedicated to each Radical program. They'll see this content as a FAN, not as an OT. Here they'll find trailers, test drives and promotional material. The FAN User is the one that downloads the app and is not an OT. You're going to see all the information of this new User, which means that you'll be able to make contact with them to discuss options.

The Home Page, for an OT certified in KM and FF, will look like this:

The rest of the 'Radical Programs' are visible underneath, as shown below

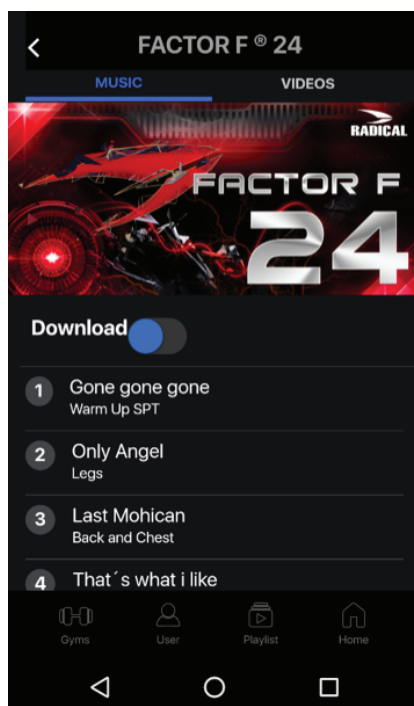

When the User enters any of the programs in which he/she is an active user, they will find all the quarterly mixes.

The latest mix is distinguishable from the other ones, with a label that says, “**New Mix**”.

Nb. Radical Elite Members will have an extra mix, with audio tracks only (no video), as well as the normal quarterley mixes.

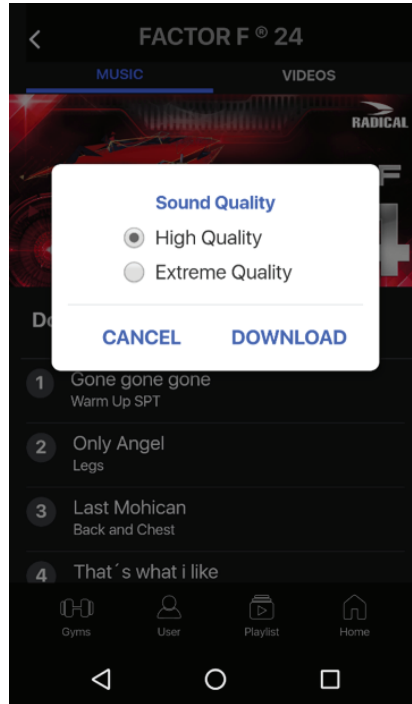

When entering a mix, the User will see a label for ‘Music’ and another for ‘Videos’. In Music they can download and play the audio files. Whilst in the other, they can view the videos.

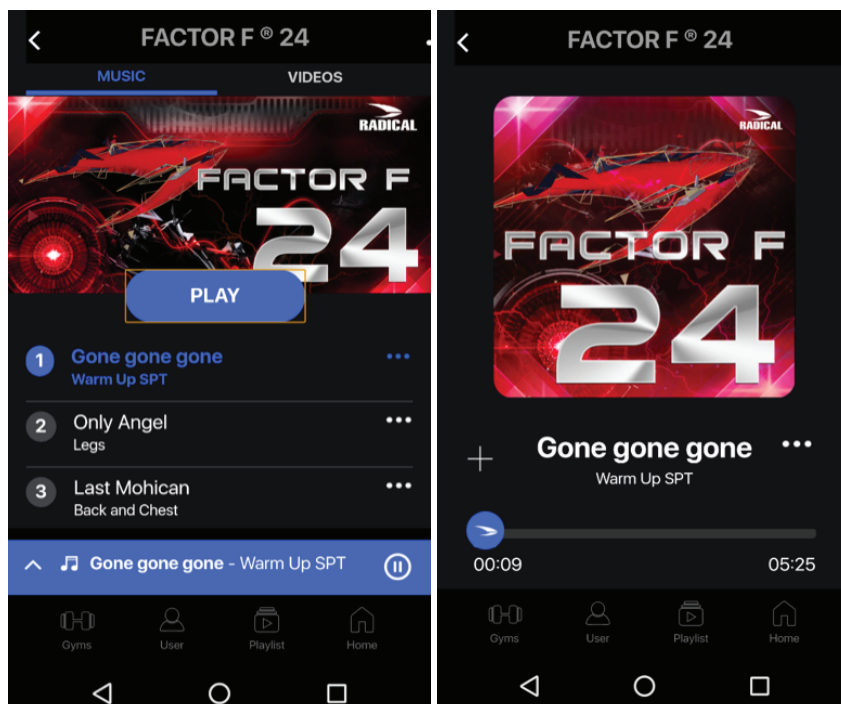

They can download the music by selecting first, the Sound Quality, and then clicking on the word DOWNLOAD.

Once the mix has been downloaded, it can be played in a full screen or a minimized screen. If they want a full screen, they touch the track to open its own window (right)

**AVAILABLE FROM MARCH:** At the right upper corner, they'll see three dots (...). When they press them, they are going to be able to delete the music or to add it to a playlist.

Mixes that have been successfully downloaded will be distinguishable from the rest. They can be identified as such because the graphic will have a thin blue line at the bottom and a blue tick on the lower right corner, as shown below

## SCHEDULE TO LAUNCH THE MIXES' FOR EACH FRANCHISE

Given that the mixes are launched on different dates, according to the area or country, the system allows each Franchise to schedule their release.

The first step is logging in to the back-end, and selecting the **PROGRAMS** menu. Here you'll find all the Programs, and Franchises assigned to them.

The screenshot shows the Radical Fitness back-end interface. On the left is a blue sidebar menu with options: FRANCHISEES, PROGRAMS (highlighted with a yellow arrow), BROADCASTING, APP USERS, CERTIFICATIONS, FEST, TICKETS, DISCOUNTS, GYMS, LANGUAGE, ADMIN USERS, and LOGOUT. The main content area is titled 'Radical Fitness' and 'Programs List of all Programs'. It features a table with columns: CODE, ORDER, NAME, COVER, STATE, FRANCHISEE, MIXES, and LOG. The first row shows a program with CODE 'FD', ORDER '20', NAME 'FIGHT DO ®', a cover image of a boxer, and STATE 'ENABLE'. The FRANCHISEE column lists various country codes with 'Edit' links. The MIXES column has a 'View Mixes (10)' button and a 'Create Mix' button. The LOG column shows creation and update timestamps.

## EDIT THE PUBLICATION DATE

In the field 'AVAILABLE FROM', select the date you wish to publish the mix. This means that all active OTs (Enabled) will see the mixes on their devices from that date. "AVAILABLE TO" is to determine the mix's date of expiry. This does not need to be entered if the mix is to be always active.

So that the Master Trainers can see the programs before the OTs, and practice the mixes they'll present at the Fiesta's, you have to assign a Preview date in "Master Trainer preview from". You can set a Due date for this.

**IMPORTANT:** The release date is established by Argentina's time zone.

In other countries, you have to calculate the time difference with Argentina to launch the mix. For example, if the release is at 00:00 hours on March 1st in Japan, you must enter as the publication date February 28th at 12:00 hours in the calendar. In this way, given the time difference between Japan and Argentina (Japan is 12 hours ahead of Argentina), the publication will be correct. As shown below

## **RADICAL MOBILE FREE CONTENT, TO PROMOTE RADICAL FITNESS**

Anyone who downloads the app and registers as a New User, are going to appear as “FAN” users. They will only have access to advertising material, test drives, trailers or any material that Radical Fitness determines.

### **How does a New User register?**

Once the App is downloaded, he/she must select “**New User Registration**” to complete some information, so that they can enter and use the App.

A screenshot of the Radical Fitness app's login screen. The background is dark. At the top center is the Radical Fitness logo. Below it, the text "Login to your account" is displayed in a light blue font. There are two input fields: "User" and "Password", each with a blue underline. Below the fields is a blue rounded button labeled "LOGIN". At the bottom, there are two links: "Forgot your password?" and "New user registration", with the latter highlighted by a yellow rectangular border.

The New User will be required to enter his/her **email**, create a **password** and select the **franchise**, based on the country of residence. If the appropriate franchise can't be found, then they should select “**Other**”.

A screenshot of the Radical Fitness app's "Create account" screen. The background is dark. At the top center is the Radical Fitness logo. Below it, the text "Create account" is displayed in a light blue font. There are three input fields: "Enter your email", "Create your password", and "Radical Fitness Argentina" (which is a dropdown menu), each with a blue underline. At the bottom is a blue rounded button labeled "GO AHEAD!".

Once these fields have been completed, press **“GO AHEAD!”** and it’s done!. The account will be created as a **FAN**. You will be able to see this in the Back-End, when you view **APP USERS**.

When the below screen is displayed they have to press **LOGIN**, and enter the same email and password used earlier, when they registered.

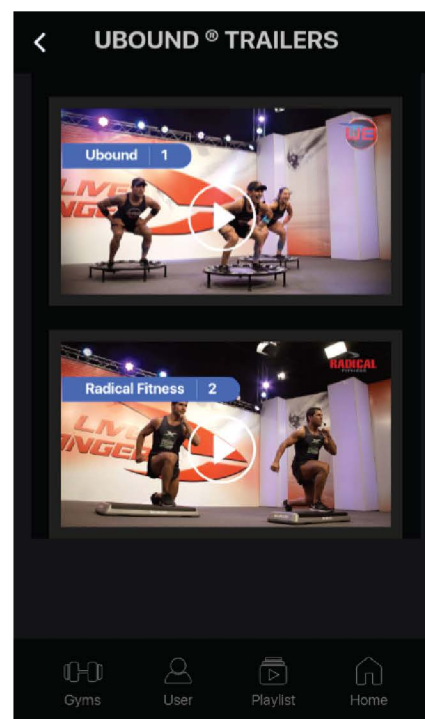

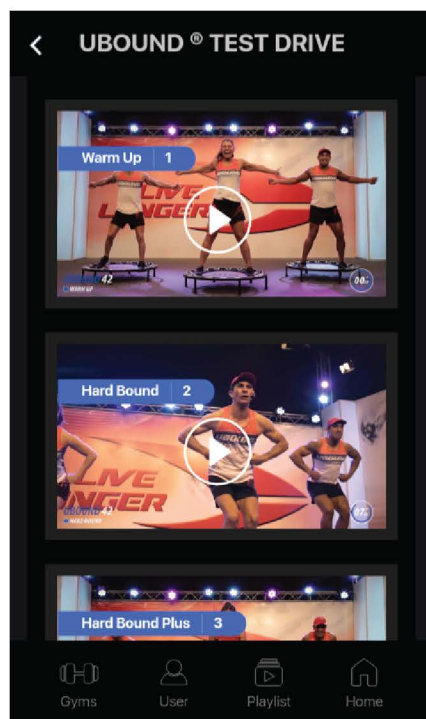

The **FAN** User will see a featured video (each franchise can choose a different video) and the Menu **“Radical Programs”**, with all Radical Fitness’ programs.

**NOTE:** this type of user will have a limited functional use of the App.

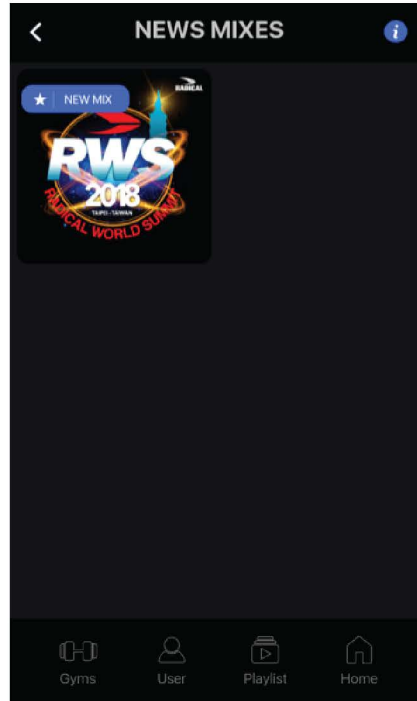

They will only be able to see videos. They will not have access to the audio files, to listen or download the music on their devices.

However, the FAN User will also have access to **RADICAL NEWS**, from their chosen franchise. For now, it is the Radical World Summit 2018 video.

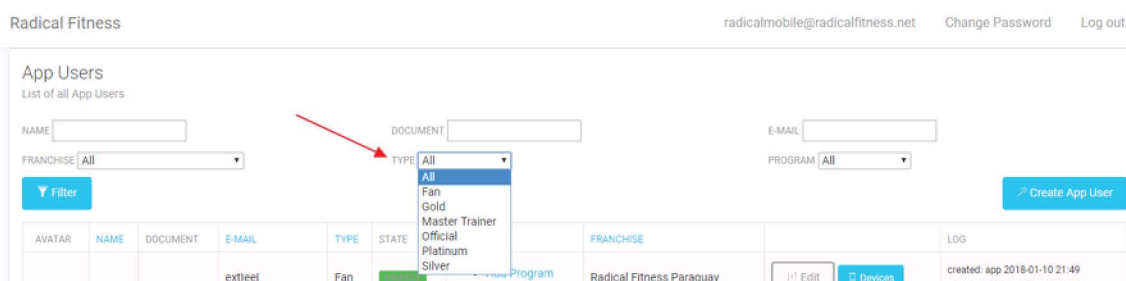

### HOW TO LOCATE & IDENTIFY A FAN USER IN THE BACK-END?

By entering at the **APP USERS** menu, mentioned in the ABM users chapter.

Here, you can use the filters to help you simplify or limit the search. From the **TYPE** menu options, select **FAN**, and then click on the (blue) icon **Filter**.

The applied filter will now reveal all users registered as FANS.

Search, locate and enter a Fan's profile to view their information, including the device from which they registered.

Of course, they won't have any program assigned to them. But, in the future you can add a program/s once they have completed a Certification and/or Fests.

------------	----------------------	-----	-------------------------------------	-----------------------------	---------------------------	---

As mentioned previously, the Edit function will enable you to modify the Users information. For example, the User may have accidentally registered as a FAN but, in fact is actually an OT. You'll have to correct this by assigning him/her the relevant program/s, and check that **ENABLED** is ticked, so that the User can access the content.

\*You'll also have to change the **TYPE** from **FAN** to one of the OT categories.

If a user (it doesn't matter what type) attempts to log in to the App with a different device, they will discover that they are unable to do so. An Alert will pop up instead, indicating that there is already another active device using this account. *As shown below*

However, the Franchisee is able to permit use of any additional device (phone/tablet), should it be necessary or preferred by the user. To do this the Franchisee will have to enter the Back-End at [www.radical.protean.com.ar](http://www.radical.protean.com.ar) and go to the **APP USERS** menu. Then click on **“Devices”** to see all the devices the user has added to their profile.

All those OT that have the assigned payment, will be able to see the new mixes in the Fest.

If you receive monthly payments from the gyms, you'll have to create monthly Fiesta's and assign the Due Date you want.

## DELETE A PROGRAM THAT WASN'T PAID

In case that an OT desists from paying the Fest in any of the programs, the Ticket must be modified so that, at the time of launching the new mixes, the program that didn't subscribe doesn't appear.

You can do it this way: Entering to “Tickets” from the backend, selecting the correspondent Fest y looking up the OT to modify. Press “Edit” (1).

When you edit a Ticket because the user isn't paying a certain program, after clicking Submit you have to go back to “Tickets” and put the new tickets as PAID. There can be cases that the programs were not ok from the beginning, so you'll to edit the ticket by deleting the programs that are not ok. Then, edit the user and assign the correct programs. At the end, go back to Tickets and create a specific Ticket for those programs and click PAID.

- **Regular:** paid for the Fiesta
- **Notified:** didn't pay for the Fiesta
- **Abandoned:** went to the Fest and left early

All Users will appear as "Notified", until you mark the tickets as paid. After this they will appear as "Regular". Once the Fest is over, you have to change the attendance status.

### **COPY OF EMAILS**

Every email sent from the App, or the Backend, will be sent with a copy to [support@radicalfitness.net](mailto:support@radicalfitness.net). So, if a User didn't receive the email you'll be able to open it from this email account, with the password Rfc\_1739\*\*

Here you'll be able to modify the User's password when they can't. The emails don't appear with the symbol @, they will appear with the word "at". So if the email is info@radicalfitness.net you'll see it as info at radicalfitness.net.
